## Part A: Pupil Premium Strategy Plan

### Statement of Intent

We place great emphasis on ensuring every child develops as a confident, well-rounded individual. Our Mission Statement – QUESTION, CHALLENGE, EXPLORE – is at the core of our curriculum.

We understand a range of factors can have an impact on the rate at which a child is able to develop strong learning behaviours and, consequently, the rate at which they achieve at school. Always striving to meet the needs of our pupils more effectively, we regularly evaluate the strengths and areas for development to ensure support is targeted and strategic.

With considered deployment of resources and regular impact evaluation, we expect disadvantaged pupils to achieve in line with their peers. We believe quality first teaching is the single most important factor to help ALL pupils make good progress. We are committed to ensuring the practice of all staff continually improves, enabling the best provision possible. Our tiered approach, as endorsed by the EEF, also targets academic support where required, through 1:1 and small group tuition. Our commitment to establishing effective relationships with the families of disadvantaged pupils allows the school to deploy wider strategies with a personalised approach.

Our Pupil Premium Strategy aims to target four key areas:

- Cognition and Learning;
- Aspiration;
- Resilience;
- Engagement

### Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge Number	Detail of Challenge
1	<b>Cognition and Learning</b> Most PPG pupils are assessed at working at the lower end of age-related expectations or are working towards age-related expectations upon entry to primary school. Analysis shows this is often because pupils have had far lower levels of stimulation at home or pre-school; some parents have poor numeracy and literacy skills making it challenging to support learning, especially reading, at home. Post-pandemic, a greater proportion of pupils are starting school with weak speech and language skills.
2	<b>Aspiration</b> Many pupils entitled to PPG have fewer experiences outside school; they live much of their life in their immediate locality. Limited life experiences and cultural capital

	narrow the children’s aspirations for their future in education and beyond. Consequently, some PPG pupils struggle to see the place their education plays in their future.
3	<p><b>Resilience</b></p> <p>For some PPG pupils, levels of resilience are very low. Pupils can find developing strong learning behaviours far more challenging as they are more inclined to give up rather than keep trying. Levels of self-esteem are generally lower and pupils find it more challenging to talk about their strengths and successes. Some PPG pupils are less confident with learning outside in conditions outside their comfort zone. Since returning to school since the pandemic, this is even more apparent.</p>
4	<p><b>Engagement</b></p> <p>Maintaining effective levels of engagement between school and PPG families can be challenging; this can have a detrimental impact on the progress pupils make in school. Analysis has shown parents of PPG pupils are less likely to attend Parent Consultation Evenings, support learning at home, respond to school correspondence in a timely manner and attend parent workshops or school events.</p> <p>Consequently, pupils are less engaged in elements of school life, e.g. extra-curricular activities, PTA events, etc.</p> <p>DSLs are reporting higher levels of parents experiencing mental health challenges which can impact on effective levels of engagement with the school.</p>

## Intended Outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended Outcome	Success Criteria
<b>Embed mega-cognition across the whole school, using secure practice in Forest School as a model.</b>	<ul style="list-style-type: none"> <li>• Forest School to model exemplary meta-cognition practice;</li> <li>• Teaching to evidence increased opportunity for ‘explore’ style learning.</li> </ul>
<b>Equip all staff with the skills to identify the need for well-being/mental health support for pupils; to develop the skills of all staff to provide an environment which supports the mental health of all pupils.</b>	<ul style="list-style-type: none"> <li>• Staff to feel confident in identifying need for well-being/mental health in pupils;</li> <li>• Staff to demonstrate a holistic approach to well-being/mental health in classrooms.</li> </ul>
<b>Provide additional support for pupils who require intervention to address ‘lost learning’ due to the pandemic; to provide additional support to pupils not on track to meet Year End Targets.</b>	<ul style="list-style-type: none"> <li>• Pupils to meet intended outcomes as detailed in intervention records.</li> </ul>
<b>To increase the levels of engagement of pupils with PPG entitlement in extra-curricular activities.</b>	<ul style="list-style-type: none"> <li>• Extra-curricular activity registers to evidence at least 10% attendance of PPG pupils.</li> </ul>

## Activity 2022-2023

This details how we intend to spend our pupil premium (and recovery premium funding) **this academic year** to address the challenges listed above. Activity shaded green indicates approaches funded with Pupil Premium Grant; otherwise, provision is funded by the main school budget. Throughout the academic year we will monitor our performance in each area to ensure we are delivering the best outcomes we can. We will also ensure we obtain the best value for the funding available and make any changes necessary to this policy in the light of experience and/or altered circumstances.
